

# W2W Fellows - Terms and Conditions

V.3, 07.07.2021

Senior guests and renowned international experts for topics of special interest are invited, in person or virtually, in order to enhance the scientific exchange between the W2W consortium and the international scientific community.

To become a W2W Fellow the invited scientist must:

- visit the three main partner institutes of W2W (LMU, JGU and KIT, as well as satellite institutes if relevant) for a minimum duration of two working weeks. The W2W Fellow is expected to commit the full duration of his/her visit to interact with the W2W community. If possible, the visit should happen in person and in one piece. In case of virtual visits, the duration of two working weeks could be adapted.
- Give a presentation at the colloquium at all three main institutes, in person if possible and online otherwise.
- Initiate and participate in informal discussions with W2W scientists, in particular with the early career scientists.

An allowance of 1.000€ is offered to W2W Fellows. If travel to and within Germany is possible, travel and hotel expenses are also covered by W2W.

The invited guests and their contribution to W2W are listed on the W2W website. For more information, visit: <https://www.wavestoweather.de/guest>.
